

2016-2017 Scholarship Recipient

Mr. A.E. DeAtley Scholarship

Craig Wilson

Senior, University of Washington

Craig is working toward his Construction Management degree at the University of Washington. He is an active member and officer in the AGC student chapter, and is a member of the ASC heavy-civil competition team. Previous community involvement has included being on the search teams for the Space Shuttle Disaster in 2002, and performing recovery operations at the Oso landslide in Oso, Washington.

Craig has been involved in the construction industry for about 22 years. He has worked as a commercial diver, pile driver and welder in the Piledriver's Union. In the future, he hopes to be employed by a heavy-civil construction company. This past summer, Craig interned with Flatiron Construction as a project engineer.

Upon graduation, Craig hopes to be offered a job with Flatiron Construction so he can continue to help build America's infrastructure. He has done all of this with the support of his loving family, who he loves to spend any extra time with on the water or snow skiing.
