

2017-2018 Scholarship Recipient

Employees of GLY Construction Scholarship

Larry Johnson/Prime Construction Scholarship

Employees of Foushée & Associates, Inc. Construction

Training & Education Fund Scholarship

Martin Zermeno

Senior, Central Washington University

My name is Martin Zermeno, and I am working toward my Construction Management degree at Central Washington University. I am a member of the AGC student chapter and was also a member of the 2017 Reno Competition Commercial team.

I first became passionate about construction my freshman year of high school when I watched the homes in my residential area being constructed. I was astonished at how fast the homes were being built. My step-dad and I would walk through the jobsites and he would explain different aspects of construction to me.

I am currently interning with Lease Crutcher Lewis in the pre-construction department where I work on various projects. It has been a great learning experience, and I hope to obtain a full-time project engineer position after graduation.

In the future, I hope to become a well-rounded individual within the construction industry and eventually work my way up to management within a company. I would like to establish a construction company alongside close friends one day.

In my free time, I enjoy spending quality time with family and friends, and staying active by exercising and hiking.
