Mitchell Cox

Senior, Washington State University

My name is Mitchell Cox, and I am working toward my Construction Management degree with a minor in Business Administration at Washington State University. I played football for two years at both Washington State and Eastern New Mexico University, and I have been an All-Academic team recipient for the past four years.

I have been interested in construction as far back as I can remember. I was inspired by my dad who would let me assist him construct decks, sheds, and other backyard projects as a kid. Since then, my interest in construction has continued to grow.

I have spent the last few summers working in residential construction and was an intern at Abbott Construction this summer. My long-term goal is to become a project manager at a well-established company.

In my spare time, I enjoy playing and watching sports, building backyard projects, being outdoors, and spending time with family and friends.
